

EDUCATION

Bachelor of Computer Science and Engineering (Cyber Security)	CGPA: 7.55
St. Vincent Pallotti College of Engineering and Technology	Nagpur, Maharashtra
2024 - 2027	
Diploma in Computer Technology - 79.65%	
Priyadarshini Polytechnic	Nagpur, Maharashtra
2023 - 2024	
Senior Secondary (XII), State Board - 93.5%	
Nirala Junior College	Nagpur, Maharashtra
2020 - 2021	
Secondary (X), CBSE - 88.4%	
Sanjuba High School	Nagpur, Maharashtra
2018 - 2019	

INTERNSHIP

Web Development Intern (On-site)
Unisoft Technologies
June 2023 - July 2023
Achievements/Tasks
- Built responsive web pages using HTML, CSS, and JavaScript following modern web development practices. - Implemented responsive layouts using CSS to ensure proper display across desktop, tablet, and mobile devices.
Web Development Intern
InternVision Tech
June 2026 - July 2026
Achievements/Tasks
- Developed responsive web applications using HTML, CSS, and JavaScript. - Designed interactive and user-friendly interfaces with modern frontend technologies. - Implemented responsive design and dynamic features to enhance user experience. - Managed source code using Git and GitHub.

CERTIFICATIONS

Tata Cybersecurity Security Analyst Job Simulation
Forage Certificate
July 2025
- Completed a job simulation involving identity and access management (IAM) for Tata Consultancy Services, collaborating with a cybersecurity consulting team. - Acquired expertise in IAM principles, cybersecurity best practices, and strategic alignment with business objectives. - Delivered comprehensive documentation and presentations, demonstrating the ability to communicate complex technical concepts effectively.

SKILLS

Languages
C C++ HTML CSS JavaScript Data Structures
Tools
VS Code Git GitHub
Databases
MySQL
Domain Knowledge
Cybersecurity (Basics) Web Development Fundamentals
Soft Skills
Communication Critical Thinking Analytical Thinking
Problem Solving Team Collaboration Adaptability
Quick Learner Attention to Details Continuous Learning

PERSONAL PROJECTS

Career Decision System
- Built a machine learning model to predict suitable career paths based on individual interests and responses. - Collected and preprocessed user input data for accurate model training and evaluation. - Deployed the trained model into an interactive interface for real-time predictions. - Achieved high accuracy using classification algorithms and performance-tuning techniques.
Personal Portfolio Website
HTML5, CSS3, JavaScript, GitHub Pages
- Developed a fully responsive personal portfolio website to showcase projects, technical skills, certifications, and contact information. - Implemented smooth scrolling, dark mode, responsive navigation, typing animation, interactive UI, and mobile-first design using HTML, CSS, and JavaScript.
Gym Management System
HTML, CSS, JavaScript, Node.js, Express.js, MySQL
- Designed and developed a web-based Gym Management System for managing member registration and gym-related information. - Built backend APIs using Node.js and Express.js with MySQL database integration for efficient data management.
